3.1	Basic Setting	3
4	Security Setting	4
4.1	Retrieve Password	4

1 Key Updates

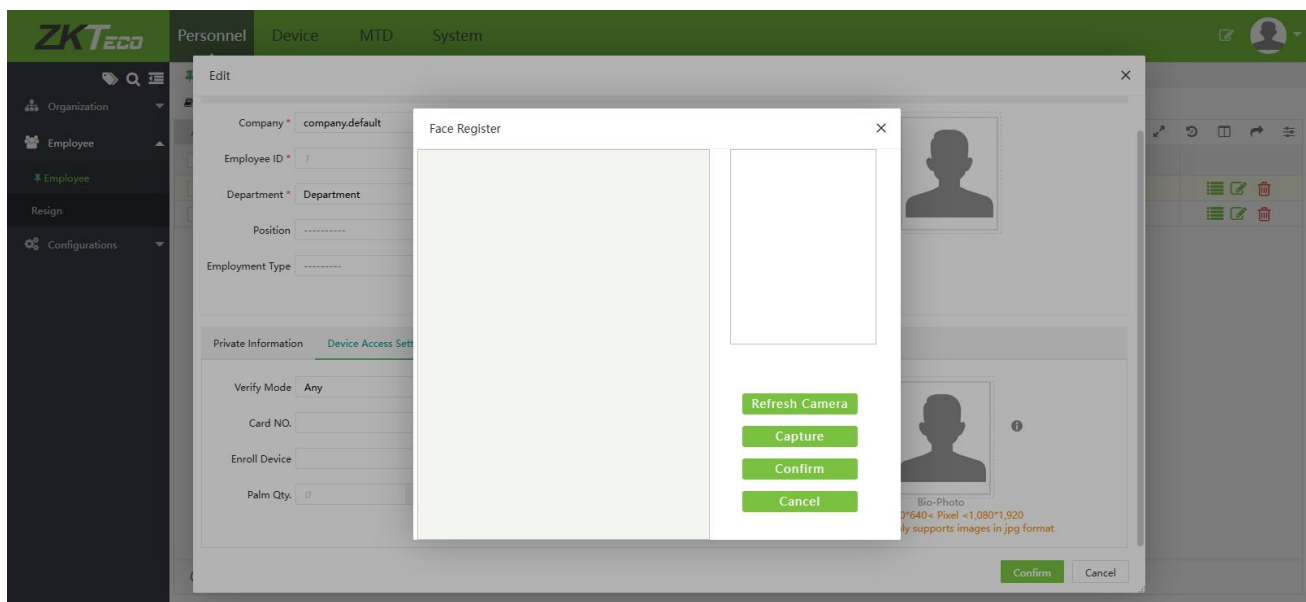

Implemented Change	Description
System	- System Setting - Security Setting

2 Personnel

The face template registration in the Personnel module has been updated, it allows you to register the face template directly in the software

2.1 Employee

Users no longer need to use Internet Explorer to register their face template. After installing the driver, you can register your face template directly with the software and streamlines the process.

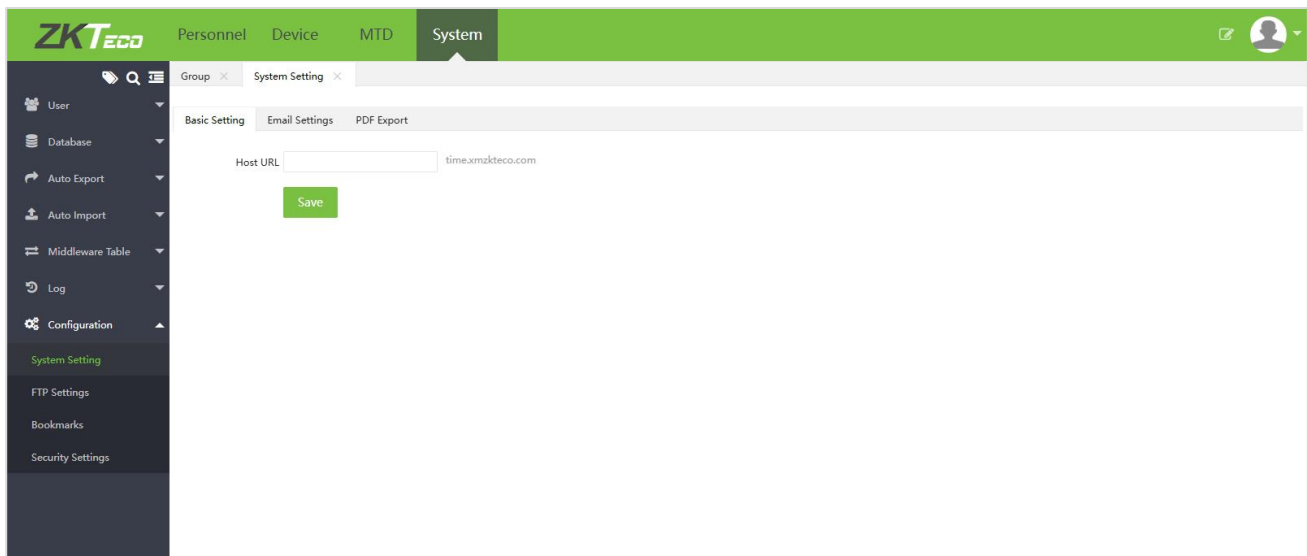

3 System Setting

A new feature allows users to recover their forgotten password via an email link

3.1 Basic Setting

Email Retrieval Control: Introduced a frequency limit, allowing users to make one email retrieval request every 2 minutes.

Link Redirection Settings: Users can now configure external URL domains for custom link redirection.

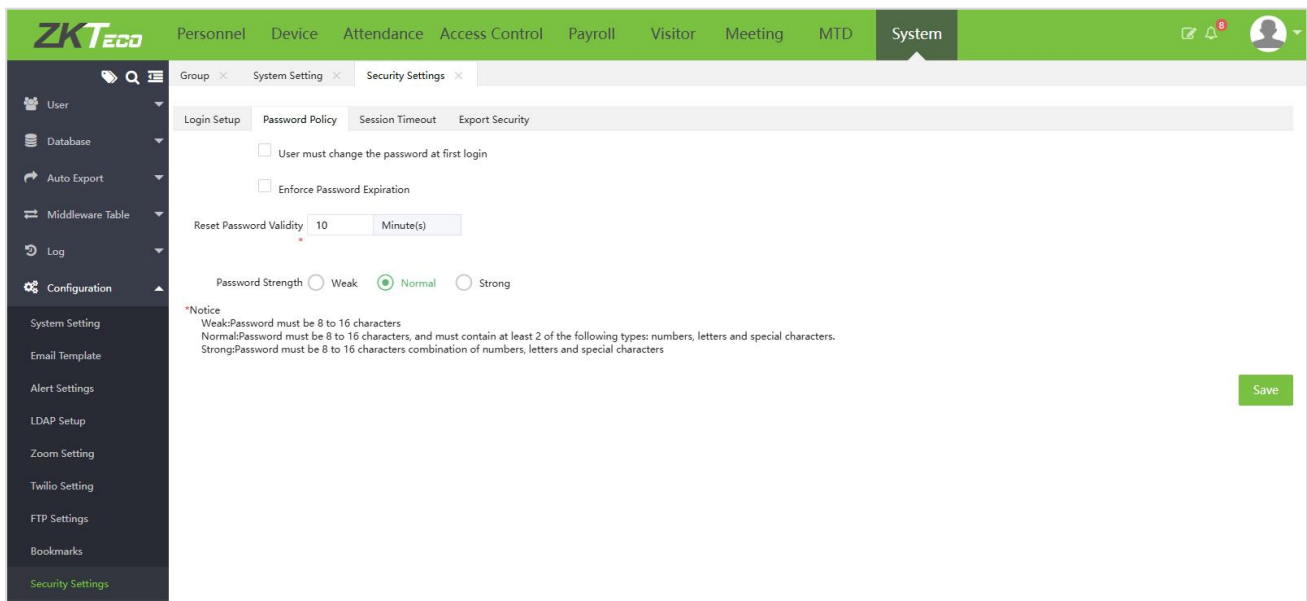

4 Security Setting

Added options (Password Setting) to define how long password reset links remain valid and to configure password policies for Employee Self-Service (ESS) accounts.

4.1 Retrieve Password

Added a setting (**Password Reset Link Validity**) to define the validity period of password reset links, with a default duration of 10 minutes.
